

PROPOSAL

Your new website and Google plan

A website that sells directly to customers, for a dealer of Polaris, Segway Powersports, TGB, Linhai, Indian Motorcycle, Royal Enfield and more in Romania.

Proposal no.	OF-2026-001
Date	06.10.2026
Valid until	05.11.2026

Summary

aspgroup.ro is the supplier's website: it presents the brands and serves dealers. We will build you something different: a website that sells directly to customers (B2C), so people in your area find you on Google and call, book a test ride, ask for financing, reserve a vehicle or buy parts online by card.

Your package	Normal price	Your price	When you pay
Complete website that sells to customers, with online shop and card payments	€5,500	€1,900 one-off	Once it is finished and live (week 12)
Google plan (SEO), our best plan	€900/month	€300/month	Monthly, from the month after launch
Hosting and care: we keep the site online, safe and up to date		€60/month	Monthly, from the month after launch

Because you are a friend: everything included, no deposit, and you pay for the website only when it is finished. You save €3,600 on the website and €600 every month on Google. All prices in EUR, excluding VAT.

Supplier site vs. your customer site

Area	aspgroup.ro (the supplier)	Your website (sells to customers)
Who it is for	Presents the brands and recruits dealers	Turns local buyers into your customers
Models	All models by type and brand, with photos and specs	Search by budget, engine size, number of seats and use (fun, farm, forest, kids)
Prices	Prices in euro and lei	Lei prices update by themselves every day
Financing	"Rate de la 40 €/lună" on each model	Customers see their monthly payment and apply for financing online
Customers	Contact form and phone numbers	Buttons to ask for a price, book a test ride, reserve with a card deposit, value a trade-in, call or WhatsApp
Showrooms	The supplier's 4 showrooms	Your showrooms, with map, hours and Google reviews
Online shop	Parts sold on a separate site	Your own shop for parts, helmets and clothing, paid by card
Used vehicles	—	A page for used vehicles and trade-ins

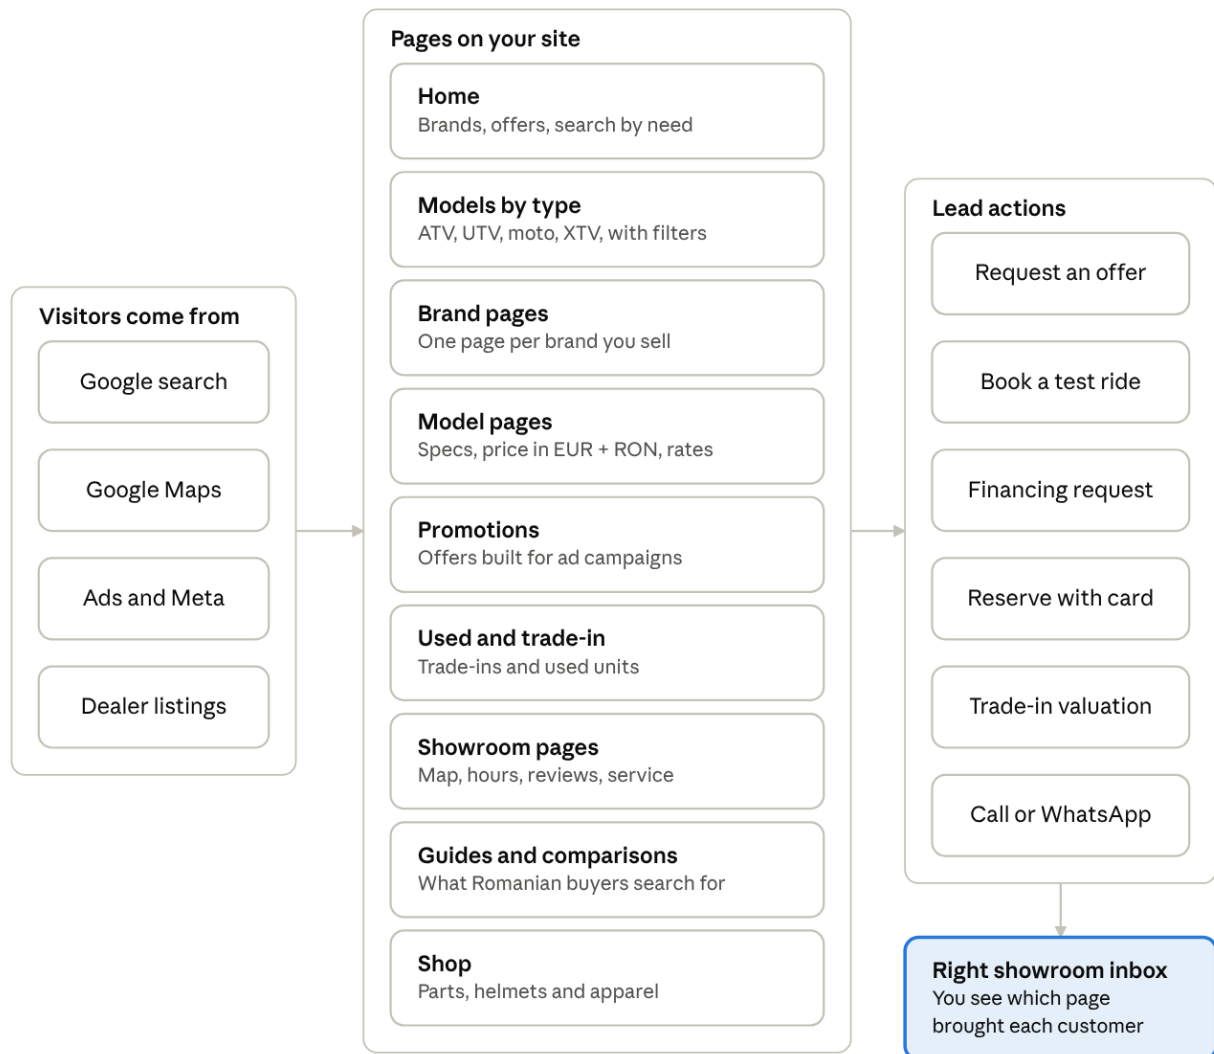

Important: we write your own texts instead of copying aspgroup.ro, because Google ignores copied pages. Photos come from ASP's dealer kit, with their OK.

Site concept

Visitors arrive from Google, Google Maps, ads or dealer listings. Every page gives them six easy ways to buy or ask, and each request goes straight to the right showroom.

Every page leads to one of six ways to buy or ask

Site map of your new website

How we will build your website

We agree on the plan, the sketches and the design before we build anything. Changing a sketch takes minutes; changing a finished website takes days. So there are no surprises and no wasted money.

Step	What we do	What you see and approve	When
1. Kick-off call	We learn your business: brands, showrooms, best sellers, typical customers	You send us the items on the checklist	Week 1
2. Research and site map	We study what Romanian buyers search for and what other dealers do, then plan every page and how a visitor becomes a customer	The list of pages, for your OK	Weeks 1-2
3. Wireframes	Simple black-and-white sketches of the main pages (home, models, model page, shop, checkout), on phone and computer, showing what goes where	The sketches; you comment and approve	Weeks 2-3
4. Design in Figma	The full-colour design with your logo, colours and real photos, plus a clickable prototype that works like the real site	A link you open on your phone; 2 rounds of changes, then your OK	Weeks 3-5
5. Build	We build the site on a private test address: models, prices, shop, card payments, couriers, invoices and the financing calculator	The test link, plus a short update every week	Weeks 5-10
6. Content	We write the texts and load all models and shop products	You check prices and texts	Weeks 6-10
7. Testing	We test every page, form and payment on phones and computers, including a real test order	Your final check and OK	Week 11
8. Launch	The site goes live on your address and we connect it to Google, Google Maps and visitor stats; 3 hours of training for your team	Your live website. You pay the €1,900	Week 12
9. Grow	Every month: Google work, site care and a simple report	The monthly report	From the next month

Figma is the professional tool designers use. You do not need to install anything: you get a link, open it on your phone, and click through your future website as if it were live.

The 12 weeks start when we receive the items on the checklist (last page). If something arrives late, launch moves by the same time.

What the website includes

Every feature we offer, in one build, live in 12 weeks: **€1,900** instead of €5,500, paid when it is finished.

Part	What you get
Design	A design made for your brand, approved by you before we build
Models	Every model you sell, sorted by type and brand. Customers search by budget, engine size, seats and use, and can compare up to 3 models side by side
Prices	Prices in euro and lei. The lei prices update by themselves every day
Getting customers	On every page: ask for a price, book a test ride, value a trade-in, apply for financing, call or WhatsApp, plus a "call me back" button. Each request goes straight to the right showroom by email
Financing	A monthly payment calculator on every model. In the shop, customers can pay in instalments
Reserve by card	Customers reserve a vehicle in stock online with a card deposit you choose (e.g. €300), then sign and pay the rest at your showroom: cash, card, transfer or financing
Used vehicles	A page for used vehicles and trade-ins
Online shop	Sell parts, accessories, helmets and clothing online. We set up to 2,000 products for you. Card, cash on delivery or interest-free instalments; delivery by courier (Fan Courier, Sameday, Cargus) or to easybox lockers; automatic invoices
Languages	Romanian and English
Ready for Google	Built so Google can read and rank it: fast on phones and easy for Google to understand
Results you can see	You can see how many people visit, where they come from and how many contact you
Legal	Cookie banner, privacy and terms pages, and the ANPC consumer badges required in Romania
After launch	90 days of free fixes and 3 hours of training, so your team can add models and offers alone
Ownership	The website is 100% yours

Built to sell

Every feature below has one job: turn a visitor into a buyer. Each one is chosen for how people in Romania buy ATVs, UTVs and motorcycles, and all are included in your price.

What we add	Why it sells more
Clear prices on every model, in euro and lei, plus “from €X/month”	Buyers compare price and monthly payment first. If they cannot see them, they leave for a dealer who shows them
“In stock, ready now” labels and a list of vehicles available immediately	Buyers want to ride this season, not wait for an order
Reserve online with a card deposit	Catches buyers the moment they decide, before they visit another dealer
Free test ride, booked in 2 clicks	Many buyers decide only after riding the vehicle
“Call me back” button with a fast-response promise (e.g. 15 minutes, during opening hours)	Buyers often contact several dealers; the first one to answer has the best chance
Call and WhatsApp buttons always visible on phones	Most visitors browse on their phone, and many prefer to call or message rather than fill in a form
“Which ATV is right for me?”: 3 quick questions (use, budget, passengers)	Guides first-time buyers to the right model and turns them into a request
Trust on every page: authorized dealer badges, warranty, your own service, Google reviews, real photos of your team	People spend thousands only with a dealer they trust
Trade-in valuation	Many buyers need to sell their old vehicle first
A page for farms and companies: leasing, invoice with VAT, work models	ATVs and UTVs are work tools for farms, forestry and hunting groups
A Rabla page for motorcycles	The government program lowers the price of a new motorcycle; ASP already promotes Royal Enfield through Rabla 2026
Shop options Romanians expect: cash on delivery, card, interest-free instalments, easybox lockers, free delivery above a set amount	When their preferred payment or delivery option is missing, shoppers abandon the cart
Accessory packs suggested with each vehicle (winch, plough, top case)	Raises the value of every sale
Automatic follow-ups: abandoned-cart reminders, a review request after each sale, seasonal offers by email	Brings back people who did not buy the first time, and grows your Google reviews
Ads tracking for Google and Facebook	You can show ads again to people who visited but did not buy

Your chance on Google

When someone in Romania wants an ATV or a motorcycle, they search on Google. The supplier and the big dealer networks show up for the general searches. But searches for a specific model, or for a dealer in your city, are still easy to win, and those people are ready to buy.

Who you compete with	How they get customers from Google	How you beat them
aspgroup.ro (the supplier)	Official pages for every model, plus paid Google ads	Your own texts (Google ignores copies), and a link from ASP's dealer page to your site
ATVRom	A separate website for each city (Bucharest, Braşov, Iaşi, Timișoara and more)	Strong pages for your own area, plus Google Maps reviews from your customers
motoclass.ro, atv-mag.ro, atv-vanzari.ro	Online catalogues with several brands	Easier search, monthly payments and buying guides
polarisofficial.ro	The official Polaris site, with a list of dealers	Get listed there: it is free and Google values it
OLX	Dealers post vehicles for sale there	Use it too, for extra customers

What your future customers search for

We will confirm the exact searches in the first two weeks.

What people search for	Examples of what they type in Google	How hard to win
A model and its price	linhai 370 promax pret, segway at5 l eps pret, royal enfield hunter 350 pret	Easy
A vehicle for a job	atv pentru agricultura, utv pentru ferma, atv pentru vanatoare, atv copii	Easy
Comparisons	linhai vs cfmoto, segway vs polaris, atv vs utv	Easy
A dealer near them	dealer atv [oraş], atv [oraş], service atv [oraş]	Medium
Buying advice	atv inmatriculare, ce permis trebuie pentru atv, atv in rate	Medium
Parts and gear	piese linhai, accesorii atv, casca atv	Medium
The big general searches	atv de vanzare, utv de vanzare, motociclete noi	Hard: 6 to 12 months

What the Google plan (SEO) includes

SEO means getting your website onto the first page of Google when people search for what you sell, without paying for each click. Our best plan: **€300/month** instead of €900. It starts the month after launch, for at least 6 months, with no extra costs.

Every month	What we do for you
Google Maps	We look after your Google Maps listing for each showroom: photos, weekly posts and more reviews
Business directories	We list your business on 35 Romanian business directories (first month)
Your pages	We improve 20 pages of your site so Google ranks them higher
Model texts	We write 12 original model descriptions
Articles	We write 5 articles in Romanian, such as “Which ATV for a farm?” or “Linhai vs CFMOTO”
Recommendations	4 Romanian moto, auto, farming or news websites link to yours (Google trusts sites that others recommend), plus 1 press article every 3 months
Health check	We check the site every week and fix any problem
Extras	Pages for the cities you serve, help with your YouTube videos, your shop products shown on Google Shopping
Report	A simple monthly report: how many calls, messages and requests came from Google, and a monthly call

What to expect

Months 1-3	Your showrooms start showing on Google Maps, and the first model pages appear on Google.
Months 4-6	People who search for models, comparisons or a dealer in your city find you and contact you.
Months 7-12	We go after the big searches, such as “atv de vanzare”.

We measure success in customers who contact you, not just in Google positions. Nobody can honestly promise you #1 on Google; we promise the work above and a clear report every month.

Running costs and payment

After launch the site costs €60 a month plus the domain; the extras are optional.

Item	Price (EUR, excl. VAT)	Notes
Hosting and care: we keep the site online, safe, backed up and up to date, plus 1 hour of small changes per month	€60/month	Needed unless you have your own technical team
Website address (.ro domain)	About €10/year	Registered in your company's name
Card payment fees	A small % per sale	Paid to the payment company, e.g. Netopia or Stripe
Model texts written before launch	€15 per model	After launch, the Google plan writes 12 per month
One more language	€500 one-off	For example Hungarian
Logo and brand design	€350 one-off	Only if you do not have one yet
Photo and video shoot at your showroom	Price on request	Your own photos and videos sell better
Running your Google and Facebook ads	From €250/month plus ad budget	The offer pages are already ready for it
Extra work not in the package	€25/hour	Always priced and agreed before we start

Payment terms

- No deposit: you pay the website (€1,900) once it is finished and live.
- The Google plan and hosting are paid monthly, starting the month after launch. The Google plan runs at least 6 months.
- This friend price is valid until 05.11.2026.
- Prices are in EUR, excluding VAT. You can also pay in lei at the National Bank (BNR) rate on the invoice date.
- You can ask for design changes twice. Anything extra costs €25/hour and is always agreed first.
- Once paid, the website, its design and its texts are 100% yours, and every account is in your company's name.
- We provide the legal pages (terms, privacy, cookies, returns) as templates; your lawyer should approve them.
- Brand logos and photos follow each brand's rules for dealers and need ASP's OK before launch.

What we need from you to start

Send us these and we start the same week.

- ☐ Company details: legal name, CUI, Trade Register number and registered address
- ☐ The website address you want (we can help you choose and register one)
- ☐ Your logo and brand colours, if you have them
- ☐ The brands and models you sell
- ☐ ASP's dealer kit: photos, logos, spec sheets and price list
- ☐ For each showroom: address, opening hours, phone, WhatsApp number and the email that should receive requests
- ☐ Your financing partner and its terms (bank or leasing company)
- ☐ Access to your Google and Facebook business accounts, if you have any
- ☐ For the shop: accounts for card payments (Netopia or Stripe), a courier and invoicing (SmartBill or Oblio); we help you open them

Acceptance

What you accept	Price
Complete website that sells to customers, with online shop, live in 12 weeks, paid when finished	€1,900 one-off
Google plan (SEO), our best plan, for at least 6 months	€300/month
Hosting and care	€60/month

By signing, both parties accept the scope, prices and terms in this proposal. All prices in EUR, excluding VAT.
